NEWS OF WALLSTREET

Cut in Steel Bars Ceases to Be a Factor Due to Optimistic Reports of Crops.

The testimony taken at the first meet ing of the committee of the House of Representatives at Washington, that is investigating the affairs of the United States Steel Corporation, was reassuring in its stock market bearing, inasmuch as nothing was brought out that was in any way damaging to the United States Steel Corporation or that has not long been an old story in Wall street, and it is considered practically certain that the day's results in this regard may be held to be fairly typical of the character of the investigations as a whole. Rain feel last night over parts of the Southwest where more moisture has been needed, and the wheat market in consequence declined.

needed, and the wheat market in consequence declined.

Three important statements of rall-way earnings were submitted—that of the Rock Island lines, with a showing of an actual increase in gross earnings of \$20,000 and a decrease of \$358,000 in operating expenses, making a net increase of \$358,000 and a net increase of \$55,000, and the Baltimore and Ohio stocks exhibiting a gross decrease of \$452,000 changed into a net increase of \$452,000 changed into a net increase of \$251,000 ch

decrease of \$453,000 changed into a net increase of \$281,000.

The bank statement exhibited unimportant changes in the principal items, it is interesting to note, however, that the windrawal of gold for shipment to Canada toward the close of the week was reflected in a \$2,842,000 cash loss in the actual figures, as compared with a small increase in cash in the average statement. The loan liem in the former compilation reported an increase for the first time in several weeks.

While the event that engrossed more stention in Wall street than anything else last week was, of course, the an-

BALTIMORE GRAIN MARKET.

ere, May J.-WHEAT-Stock in elevators, 18,6

New York, May 27.—Quiet as stock exchange business was to-day, the restilency of the stock market shown yesterday was continued, and perhaps in an even more decided way, considering the comparative smallness of the volume of transactions.

The gains made were not large, but they were general. There was an entire lack of nervous or excited trading, and it was obvious that the news of the current disturbances or what was thought to be a disturbance in the iron and steel trade considerably lost force as a market factor.

Again to-day, too, notable strength was shown by certain especial stocks, prominent among these being the Westingshouse and American Beet Sugar shares, and improving business conditions were at the bottom of the rise in each instance.

Pittsburg Coal made a sharp advance and there is some reason for the belief that a large interest in Pittsburg Coal, if not actual control of the company, has been acquired by an important industrial concern.

The testimony taken at the first meeting of the committee of the House of the week were comparative smallest bars made by the Republic Iron and Steel Company, yet the spot library steel bars made by the Republic Iron and Steel Company, yet the most important and evelopment of the week was in the fact of the manifestations of a more optimities entiment in so many different lines of business.

There was no brisk or lively picking up in any direction, but evidences were plenty that business men were beginning to make preparations for more active trade. A distinctly firmer undertone is visible in the leather and shoe manufacturing lines; even the woolen and cort on trades, which have been, so long notably depressed, are showing signs of renewed life, and the canning, beet sugar, and electrical manufacturing industries are all extraordinarily active.

Finally, not the amount of their operating expenses as to compress net decreases within small limits. It will be very interesting to notice if a little later on a cut of the committee of the House of the committee of

BATTLE SHIP SHOWS MODERN FEATURE OF NAVY.

The United States battle ship Delaware, which will loom above all other ships of any nation at the naval review during the coronation of King George. Admiral McKenna, of the British navy, somowfully admitted in the House of Commons recently that the Delaware will be the largest craft in the review, surpassing Great Britain's show ship, the Neptune.

COTTON MARKET.

sold in private transactions as high as lot; Chapin-Sacks stock is worth between 155 and 190 a share, and the Commercial National shares are worth \$300.

Local Securities Quiet.

Utilities bore the brunt of the largest part of the trading, but the session was quiet throughout. Gas was easier, and dropped back a good ¼ and ¾ of a point. Capital Traction was steady around 125 and Washington-Virginia common made a new high mark of 29 on one trade. Elsertic 4s were steady and meeting good demand at 84½, and Lanston attracted some attention, selling 30 shares at 55% B. & O. Earnings.

REAL ESTATE LOANS

Having Temporary White House.

Eleven resorts are seeking the honor of being designated as the summer head-quarters of the President of the United States. Judging from press dispatches the returns are not all in yet.

Here is a list of the towns that have communicated with the President, each one giving fifty-seven or more reasons why it should be selected as the summer outing place of the Executive: Lake Minnetonks, Bermidji, Gienwood, and Alexandria, in Minnesota: Spirit Lake, Jowa; Bald Knob, Tenn.; Mackinac Island, Mich.; Colorado Springa, Colo.; Put-in-Bay, Ohio, and Middlesboro, Ky. An island in the St. Lawrence Elverhas also been placed at the disposal of the President.

W. H. WALKER, 729 15th St. N.W. WOULD BE SUMMER CAPITAL
